

# Security Management

AMERICAN SOCIETY FOR INDUSTRIAL SECURITY

JANUARY 1987-DECEMBER 1987

## 1987 Index

ARTICLES IN THE FOLLOWING INDEX TO *SECURITY MANAGEMENT* were published from January 1987 through December 1987. Copies of individual articles may be obtained from University Microfilms International; 300 North Zeeb Road, Dept PR; Ann Arbor, MI 48106; 313/761-4700 or 800/732-0616.

Articles may also be obtained by purchasing the full issue in which that article appears. To purchase any back issue,

send \$3.50 per issue plus \$2.00 shipping and handling per order to the Accounting Department; American Society for Industrial Security; 1655 North Fort Myer Drive, Suite 1200; Arlington, VA 22209.

Some *Security Management* articles are also available in different reprint series. A catalog, distributed by ASIS, describes the series as well as other publications available from the Society.

## LIXI<sup>®</sup> Fluoroscope - a real-time X-ray system so portable you can provide security screening anywhere.

Mail and packages that look harmless may end up killing someone. An ordinary looking envelope that's actually a letter bomb, or someone entering a secured area with a handgun concealed inside a briefcase are commonplace in today's dangerous world.

You must be able to screen mail and packages **wherever** and **wherever** there is a hint of danger. LIXI Fluoroscope is portable, self-contained, and may immediately be taken anywhere there's a problem. Most conventional systems are installed in fixed locations and, therefore, not always usable. With LIXI Fluoroscope's ability to screen mail and packages **anywhere, anytime**, you can more effectively protect life and property.

For smaller packages and mail, LIXI Imaging Scope - the handheld, 6 1/2 lb. isotope version. Model shown L-82-209.

LIXI Fluoroscope - lightweight, portable, optional 12V DC adaptor. Model shown LF-85-503.

<b>Detex</b>			
<b>watchclocks</b>			
<b>stand the test</b>			
<b>of time</b>			
For more than 100 years Detex has set the standard for watchclocks and watchtour equipment. More watchclocks bear our name than all others combined.			
Detex Guardsman.			
At least 95% of all Detex watchclocks ever sold were still working when retired—reliability few products of any kind can match. And Detex watchclocks are easy to use. Our Guardsman model, for example, provides a tamper-proof embossed record of tour visits without ribbon, carbon or ink. All Detex watchclocks have been tested and approved by Factory Mutual.			
For more information on Detex watchclocks and other security products, please call.
